

# News from HD Rehab

## Backrest cushion improvements for HD Balance

- *New shape – The cushion is now broader at the top to give better support for the back, especially in cases where the straps of the Flexi back are set very slack.*
- *Moulded – This makes the cushion shape more defined.*

The new backrest cushions will gradually replace the current models beginning in the middle of April. Covers that fit the current backrest cushion will continue to be available to purchase as replacement parts.

*The new backrest cushions*
