ANTI-TIP DEVICES

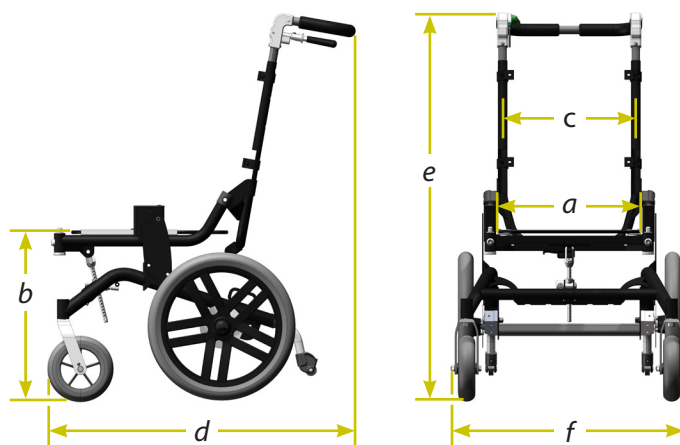

3 setting positions, easily rotated up

HD Balance Chassis maintains the same high quality as our other wheelchairs. The chassis is stable, has good handling, and is easy for caregivers to use. These characteristics make HD Balance Chassis an excellent choice when using moulded seats and back supports.

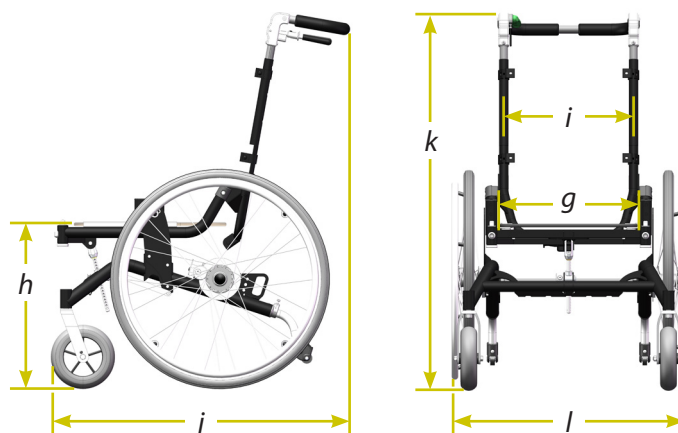

Most regular HD Balance accessories are also suited to HD Balance Chassis. Assessment of what can be used in combination with moulded seats and backs should be done in each individual case by technical personnel.

MODEL 16

Seat width	38 / 42 / 46 / 50 cm	(a)	Total height (back 90°)	1050 cm	(e)
