As requested by customers and in order to secure supply, HD Rehab is making a change to the Side Support plate for HD Balance. The material of the Side support plate will be changing to ABS. This does not change the function or quality of the product, but it does simplify reconditioning.

The change will start being implemented in the 2nd quarter, 2024

Footbox will keep the same article numbers, but the numbers for the side support plate will change.
